EXPERIENCE

Frontend Angular Developer, *Jobeagle* ⎘
March 2023 – September 2023 | Remote

- **Admin Dashboard Development (Angular):** Created an Angular-based admin dashboard that provided real-time insights into company performance. Implemented Agile methodologies for efficient workload management, enhancing company awareness and facilitating continuous improvements.
- **Code Review and Collaboration (Agile):** Actively participated in code reviews and collaborated with team members to enhance different aspects of the codebase. Agile methodologies were consistently applied to improve code quality and streamline development processes.
- **End-to-end Testing (Cypress.js):** Initiated the adoption of Cypress.js for end-to-end testing, ensuring application functionality across multiple browsers.

EDUCATION

Frontend Development Bootcamp, *Remotecoders*
March 2023 – September 2023 | Cairo, Egypt

- **Intensive Web Development Training:** Completed a rigorous program focusing on HTML, CSS, JavaScript, Python, and Flask, building a strong foundation in web technologies.
- **Project Showcase:** Developed a Graduation Budget Tracker project, applying web development skills in a practical real-world context.
- **Tech Stack Mastery:** Engaged in deep discussions on various web technologies, gaining proficiency in problem-solving and hands-on coding.
- **Effective Collaboration:** Enhanced soft skills through collaborative learning, promoting effective communication and teamwork.
- **Well-Rounded Training:** Received comprehensive training across multiple web development areas, establishing a solid foundation for future career growth.

Frontend Angular Development Diploma,
Instant Academy
2021 – 2022 | Alexandria, Egypt

Bachelor of Accounting,
Faculty of Commerce, Alexandria University.
2018 – 2022 | Alexandria, Egypt

PROJECTS

EPFL Graduation Project, *Budget Tracker* ⎘
Track your income resources and expenses leaks. Implemented using Python, Flask framework, and JavaScript.

Special Template ⎘
Special Design Template created using HTML, CSS and mainly JavaScript to manipulate a lot of functionalities in this app.
